

THE STATE OF GUN VIOLENCE IN MINNESOTA

While Minnesota has the seventh-lowest gun death rate in the nation, 922 Minnesotans are still killed or wounded with a gun each year. State lawmakers can and must do more to keep its residents safe.

GUN SUICIDE

- Nearly 80% of all gun deaths in Minnesota are suicides.
- Guns are used in fewer than 1% of suicide attempts in Minnesota, but are responsible for more than 45% of the state's suicide deaths.

URBAN GUN VIOLENCE

- Gun violence has a disproportionate impact on urban communities of color.
- Black men make up less than 4% of Minnesota's population, but account for more than 40% of the state's gun homicide victims.
- In Minnesota, black men ages 18–24 are nearly 40 times more likely than white men the same age to be murdered with a gun.

DOMESTIC VIOLENCE

- Guns make domestic violence incidents far more likely to end in death.
- Over 50% of Minnesota's intimate partner homicides involve a gun.
- From 2008 to 2017, 100 women were killed with a gun by their intimate partner in Minnesota.

YOUNG PEOPLE AND GUNS

- Exposure to gun violence can cause lasting trauma in young people, leading to PTSD, chronic stress, and decreased future earnings.
- From 2007 to 2016, 313 people age 19 and under were killed with a gun in Minnesota. Another 1,835 were shot and wounded.

PROVEN SOLUTIONS TO PREVENT GUN VIOLENCE IN MINNESOTA

Minnesota has made modest improvements to its gun laws in recent years, but much work remains to be done. To save lives from gun violence, state lawmakers should require **background checks on all gun sales** (supported by 90% of Minnesotans), enact an **extreme risk protection order law**, which removes guns from people at risk of harming themselves or others (supported by 87% of Minnesotans), and fund **urban violence intervention programs**, which have been shown to reduce gun violence by up to 70%.
